DETAILED ACTION

I. Applicant has overcome 35 USC 102(e) rejection on record by the submission of Declaration Under 37 CFR 1.132 declaring that Makoto Takeuchi is not an inventor of instant invention.

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 8,13-19,22 are rejected under 35 U.S.C. 102(e) as being anticipated by Miyazawa et al (EP 1 095 565; 5/2/01). Miyazawa teaches a method of applying proline onto the surface of leaves of lawn grass and applying inosine to the subterranean part(s) of lawn grass by application to the soil. See abstract, claims.

Claim Objection

Claims 20,21 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims. The prior art does not teach or suggest the instant invention comprising arginine or glutamine.
